

BAHAA YASSINE

Bourjein, Chouf, Lebanon | (961) 71 683784 | bahaayassin92@gmail.com | bahaay.github.io/portfolio/

As a proficient Web Developer, I excel in both front-end and back-end technologies, including HTML, CSS, JavaScript, jQuery for crafting responsive user interfaces. I utilize frameworks like Bootstrap for streamlined development and cross-browser compatibility. My expertise extends to server-side scripting with PHP and API integration, creating efficient web applications, and managing databases with MySQL and Microsoft SQL Server to ensure optimal performance and data integrity.

EDUCATION

- **2021-2022: Bachelor of Management information systems**
Lebanese University - Faculty of Technology - Saida – Lebanon.
- **2018-2019: Baccalaureates in Sociology and Economics**
Ecole Universelle - Daraya – Lebanon.

EXPERIENCE

- **2022 – Present**
Web Developer at RDC (Route for development and consultancy)
As a Fullstack Developer for ERP, schools, and universities systems, I create user-friendly interfaces, robust databases, and efficient server-side logic, collaborating with stakeholders to align solutions with organizational objectives.

COURSES AND CERTIFICATIONS

- **Laravel Certificate from Udemy**
43 hours
During this course, I have acquired to utilizing Laravel's powerful features, such as Eloquent ORM for database interaction, Blade templating, authentication and authorization systems, routing, middleware and testing.
- **PHP Certificate from Udemy**
37 hours
This course encompassed a wide range of essential competencies, including Object-Oriented PHP, effective use of arrays and data structures, validation and secure handling of files, robust debugging techniques and error management. Furthermore, I've gained insight into safeguarding PHP applications from security threats and preparing them for seamless deployment to web servers.

PROJECTS

- **E-commerce Web application**
Developed a dynamic online e-commerce WebApp crafted with a blend of languages as HTML, CSS, JavaScript, jQuery, Ajax, Bootstrap for the client-side and PHP for server-side processing and MySQL for robust database management. With a sleek and user-friendly interface powered by responsive design elements, customers can effortlessly browse, search, and purchase products.
Chatting Web application
Built chatting web app to meet new people and talk to each other through chat by logging in with email.

SKILLS

- | | | |
|---|--|--------------------------|
| • Programming languages
HTML, CSS, JavaScript, JQuery, Ajax, Json, PHP, Python, C, C#, Java (Android Applications). | • Database
MYSQL, Microsoft SQL SERVER, Firebase. | • Fix programming bugs. |
| • Frameworks
Laravel, Bootstrap. | • Softwares
Android studio, Visual studio, SharpDevelop. | • Fast self-learner. |
| | | • GitHub & SVN Commands. |

LANGUAGES

- | | | |
|-------------------------|------------------------------|-----------------------------|
| • Arabic: Native | • English: Good level | • French: Good level |
|-------------------------|------------------------------|-----------------------------|
